

SAW Philosophy

S.A.W. Philosophy

Summer at Wooster was founded 13 years ago to provide the best possible summer camp experience for campers. At SAW, campers explore new worlds, develop new skills, and make new friends in a safe, supportive, and stimulating environment.

With our focus on a balance of fun and learning, we provide a unique opportunity for campers to combine enrichment courses with recreation, sports, swimming, tennis, and fine arts. We provide an opportunity for children to develop academically and athletically. We encourage curiosity, promote leadership, applaud teamwork, build confidence, and foster respect. Our small camper-to-teacher ratio is ideal for achieving these goals.

Building on the wisdom of Wooster School's more than eight decades of leadership in education, Summer at Wooster draws upon the strength of Wooster's exceptional faculty. Our serene 100-acre campus sets a superb backdrop for the perfect camp experience.
